

DIVORCE & FAMILY LAW

At Meyers Roman, our team of family law attorneys serves as compassionate and supportive advocates for all family law needs across a five-county area extending throughout Northeast Ohio in both domestic relations and juvenile courts. Our role is not limited to simply addressing the legal issues. We take the time to get to know our clients so we better understand their goals and concerns. By taking into account each person's unique circumstances, we guide our clients through the termination of their marriage and other sensitive family matters with a thoughtful and compassionate approach. Our representation encompasses issues related to division of property, determination of business interests, tax considerations, allocation of debt, parental rights and co-parenting issues; domestic violence; and, child and spousal support responsibilities. We advise clients about to enter into marriage with preparation of Prenuptial (Antenuptial) agreements and can assist parties with opportunities for adoption. Always mindful of the financial impact to our clients, we assess each case early so we can provide realistic expectations and a clear path towards a viable resolution.

The breakup of a family impacts every aspect of a person's life. Our divorce and family law attorneys combine broad legal knowledge and experience with a genuine sense of empathy to help clients arrive at the best possible outcome in an otherwise difficult situation. In order to transition our clients and their families into the next phase of their life, we carefully consider all options related to their children, businesses, family assets, retirement and emotional well-being. By tackling these matters with a private, thoughtful and constructive approach, we have brought success and satisfaction to our clients.

At Meyers Roman we believe that, whenever possible, a non-adversarial approach is the most constructive way to reach a resolution. Our attorneys are specially trained in Collaborative Law and Mediation with the goal of empowering both parties to create meaningful win-win resolutions. While our goal is to resolve matters prior to a hearing or trial, there are situations where litigation becomes unavoidable. In these cases, clients can rely on our litigators' extensive trial experience to help them achieve the best possible outcome while keeping important family relationships intact.

The advantage of working with the Meyers Roman is you have passionate family law advocates working on the client's behalf but clients also have access to a strong, comprehensive team of attorneys in practice areas including business, real estate, tax, and estate planning.

Community-minded, our attorneys are actively involved in the leadership and support of various family law and domestic relations organizations throughout Northeast Ohio, including the Center for Principled Family Advocacy and the Domestic Violence & Child Advocacy Center. Team members also have served on the Domestic Relations Task Force for the Ohio Supreme Court and are founding members of the Cleveland Academy of Collaborative Professionals.
