AREA OF PRACTICE

Workers' Compensation

Both state-funded and self-insured clients know they can rely on Meyers Roman's decades of experience in saving companies money by protecting them against Workers' Compensation fraud and abuse. Our attorneys provide risk management counseling and aggressive, yet cost-effective defense in all aspects of an employer's Workers' Compensation claims. Our clients include private and public-sector employers of all sizes across a wide range of industries.

We work closely with employers, third party administrators and insurance carriers to effectively defend fraudulent claims, positive post-accident drug/alcohol-related claims, death claims and excessive lost time claims. We also represent employers in VSSR (Violation of Specific Safety Requirement) claims and disputes with the Ohio BWC regarding worker misclassification and successor liability.

Our experienced attorneys counsel clients on coverage and non-coverage liability issues, as well as return-to-work issues, light duty assignments, drug-free workplace issues and accident investigations. In addition, we provide a unique combination of expertise, including certification as a specialist in Workers' Compensation Law by the Ohio State Bar Association and background as an Assistant Attorney General representing several state agencies, including the Bureau of Workers' Compensation.
