AREA OF PRACTICE

Mergers & Acquisitions

Our Mergers & Acquisitions attorneys counsel publicly traded and privately held companies that are selling, acquiring and merging businesses. We routinely manage the full spectrum of topics critical to the completion of a transaction, from structuring the transaction, performing due diligence, obtaining financing and negotiating deal terms to documenting the transaction and assisting with post-closing requirements. Our attorneys invest the time to understand each client's business and end goals and are therefore able to better understand the challenges and dynamics unique to each transaction. As such, we offer innovative, practical and cost-effective solutions to achieve successful outcomes.

Our business attorneys advise clients in mergers, acquisitions, divestitures, joint ventures, leveraged buyouts, spin-offs and split-offs, business restructuring, distressed transactions and recapitalizations and reorganizations. In addition, we combine the legal and business experiences of our attorneys across related practice areas to provide additional expertise in areas such as labor and employment, employee benefits, environmental, real estate, antitrust and intellectual property. We work closely with our Finance practice area to assist with debt financing, convertible debt and private equity. In addition, we have attorneys who provide strategic tax advice and planning as certified specialists in Federal Taxation Law by the Ohio State Bar Association
